Mare Returns

Overview of the Mare Returns Process

The Mare Returns process enables Breeders to submit Returns to NZTR for Mares that are administered by them (either as an individual breeder or in a partnership).

The Mare Returns process comprises of four steps as illustrated in the process diagram below and forms the structure of this user guide:

Step One – Select Mare

From the main menu, once you have navigated to the Mare Returns area of the Breeders Service Centre, the following page will be displayed:

Return Mares Administered by Denise Howell

The mares listed below are administered (for breeding purposes) by you. If there are any registered broodmares that do not appear on the list below, please contact the Stud Book team of NZTR. Alternatively, if you no longer own/administer any of the below listed mares please also contact NZTR to advise.

Mare Returns - Step 1

Enter mare name:

OR

Select a mare from returns previously lodged (see list below).

Note: Where you are the administrator for multiple ownership groups and payment is to be separated you must only file those mares owned by that group before proceeding to payment.

If you have any unpaid returns please click [here](#).

SEASON	MARE NAME	LAST COVERING
Miss D Howell		
2007	Call Me Lily (NZ) 1995	20/11/2006
2007	Careyes (NZ) 1998	14/12/2006
2007	Privileged (NZ) 2002	25/09/2006
Miss D Howell & G A Rogerson		
2007	Amatullah (NZ) 1997	02/12/2006
2007	Brose Of Tralee (NZ) 2000	30/09/2006

You must lodge the earliest season mare return first if mare has multiple returns missing.

On this page, all the Mares that you administer that are still active are displayed. A Mare's name may appear more than once in this list when Returns have not been submitted for previous breeding seasons. In this case you will see the Mare's name more than once, but the season against the Mare's name will differ.

If a Return has been entered for a Mare, but it hasn't been paid for yet, a status of "In Progress" will appear to right of the Mare record in this list.

Once a Return has been entered and paid for, the Mare's name will drop off this list.

There is also a navigation option available to go to the payments page for Returns that you have previously submitted but not yet paid for (it is possible to submit returns and elect to pay at a later date). If you wish to go to the payments page to submit payment, use your mouse pointer and click on the

If you have any unpaid returns please click [here](#) link (Go to Step Three in the Mare Return process on *page 15* to see instructions on making a payment).

Once on this page, a step-by-step approach to the Mare Returns process is provided. Step One requires you to select the Mare you wish to submit the Return for. You have the option to select the Mare from the list of active Mares displayed by double-clicking on the Mare's name, or if the list is long you can use the "Find Mare" functionality to search for and display the Mare.

Note: New broodmares will not be available here if you have not first contacted NZTR and registered that mare for breeding.

Enter mare name:	<input type="text" value="care"/>	<input type="button" value="Find Mare"/>
Season	Mare	Last Covering
2007	Careyes (NZ) 1998	14/12/2006

If a match can't be made on the search criteria provided a message will be displayed to inform you:

There were no mares requiring a return that match your search.

If no match is made, try re-entering your search criteria and re-submitting the Find Mare request. As a tip, try relaxing the criteria to be broader e.g. in this example you could simply enter the letters "ca" and the results will display all Mares that have the combination of the letters "ca" appearing anywhere in their name:

Enter mare name:	<input type="text" value="ca"/>	<input type="button" value="Find Mare"/>
Season	Mare	Last Covering
2007	Call Me Lily (NZ) 1995	20/11/2006
2007	Careyes (NZ) 1998	14/12/2006

Once the Mare you are submitting the Return for is displayed in the results list, click on the record to display the next step (2) in the return process for that Mare.

Step Two – Enter Foal Return Results

With a Mare selected and Step One completed, the following information will be displayed:

Mare returns fall under two distinct categories:

- Live Foal Returns (covered in the next section)
- No Foal Result (go to *page 13* for further instructions)

For live Foal Returns select either "Foaled" or "Foaled Twins" from the Result list. Upon selecting either of these results, you must complete the Live Foal Return Details:

Live Foal Return Details

Foaling date: Mating Guidelines pertaining to progeny colour and gestation.

Foal colour:

Sex: Colt Filly

To illustrate a Live Foal return, this example assumes only one live foal was selected as the result, and the following information is required:

- The Foaling date
- The Foal colour
- The sex of the Foal

Use the drop-down lists to select the details pertaining to the Foal.

For the Foaling date, there are two fields, one to record the day, the other to record the month for the result of the cover displayed at the top of the page:

Mare Return for Careyes (NZ) 1998 **for 2007 Season**

Once the Live Foal details have been recorded, complete the next section of this step under the **Breeder name/foal ownership:** heading for details about the status of the Mare, where you can choose from the following:

- Mare still active
- Mare died
- Mare retired

Use the mouse pointer to select the status for the Mare for the next cover season.

Status of mare:

Mare still active Mare died Mare retired

If the Mare has either died or has been retired from breeding, click on the associated button to reflect this status, in doing this the Mare will be removed from the active list of Mares that you administer (so no further Returns can be made for it) and can only be re-instated by contacting NZTR directly.

If a Mare is going to remain active, but **NOT** be served in the current season, the following status settings need to be set:

Status of mare:

This will retain the Mare in the active list, enabling you to submit a Return for the next season. When submitting this future Return, when you reach Step Two of the process, the fields to record the Live Foal Return Details will be greyed-out preventing you from recording Foal details, however you will still be able to record the status and covering stallion (s) for the following season.

When the status of a Mare is active, you need to select the Stallion(s) that will be covering it during the current season (if you have selected an inactive status, the fields to record the Stallions will be greyed out preventing you from selecting a Stallion).

Optional Process – Select Alternate Sire

If the Mare is going to be covered by another Stallion in the current cover season there is an option to search for and select another Stallion. To do

this, firstly you need to tick the Mare was also serviced by at least one other sire box to enable you to enter the search criteria into the alternate Stallion field. Use the mouse pointer to click this box:

Follow the instructions above to enter the search criteria to select a Stallion

In the example illustrated the Mare was only covered by one Sire.

Alternate Return option – No Foal Result

If the Foal return results are negative, i.e. one of the following:

- Foal Dead
- Missed
- Slipped
- Slipped Twins

The Live Foal Return Details don't need to be completed and this area of the page will be "greyed-out" and will not allow any details to be recorded.

In this scenario, skip to the **Breeder name/foal ownership:** section. This step is covered as part of the process for recording a Live Foal Return below.

Once you are satisfied that the details recorded in Step Two of the Mare Return process are correct, proceed to the next step by clicking on the button, if the information submitted is accepted, Step Three of the Mare Return process will be displayed.

Step Three – View Mare Returns Summary

The Mare Returns Summary will be displayed once Steps One and Two of the Mare Returns process have been completed. This summary page can also be directly accessed from the BSC main menu when Mare Returns have been completed previously, but have not yet been paid for:

Return Another Mare Proceed to Payment

At this Step you have the option to proceed with the payment for the Mare Return **or** process a Return for another Mare. If you are administrating Returns for multiple Mares, you may wish to complete all the Returns first and then make payment for all of them in one go.

Option 1 – Return another Mare

Click on the  button to record another Mare Return.

Option 2 – Proceed to Payment

To proceed with you payment, you need to accept the Rules of the New Zealand Stud Book. If you agree to be bound by these rules, use your mouse pointer and click on the box alongside the acceptance clause:

I agree to be bound by the [Rules](#) of the New Zealand Stud Book

If you wish to see the Rules, click on the Rules Link in the acceptance clause:

This will display the New Zealand Thoroughbred Racing Inc Constitution and New Zealand Rules of Racing. To close the window displaying these rules, click on the button at the top right of the screen and you will be returned to Step Three.

In the example below, another Mare Return has been completed prior to making payment for the first Return and its details have been added to the Mare details list on the Returns Summary:

Stallion Returns

Overview of the Stallion Returns Process

The Stallion Returns process enables Breeders to submit returns to NZTR for Stallions that are administered by them (either as an individual breeder or in a partnership). Once a Stallion is selected the Breeder can declare all Mare coverings for the breeding season stated.

The Stallion Returns process comprises of five steps as illustrated in the process diagram below and forms the structure of the instructions for these returns in this guide.

Step One – Select Stallion

From the main menu, once you have navigated to the Stallion Returns area of the Breeders Service Centre by clicking on [Stallion Returns](#) link the following page will be displayed:

Stallion Declaration of Service

The stallions listed below are administered by you for breeding purposes. From here, you can select a stallion and declare all mare coverings for the breeding season stated.

Stallion Declaration of Service - Step 1

Enter stallion name:

OR

Select a stallion from returns previously lodged (see list below).

If you have any unpaid returns please click [here](#).

SEASON	STALLION NAME
2007	Casual Lies (USA) 1989
2007	Falkirk (NZ) 2000
2007	Golan (IRE) 1998
2007	King's Chapel (AUS) 2000
2007	Star Way (GB) 1977
2007	Thorn Park (AUS) 1999
2007	Volksraad (GB) 1988

You must lodge the earliest season stallion declaration first if stallion has multiple returns missing.

CERTIFICATE OF SERVICE FEES	
1 - 14 mares covered	\$100
15 - 30 mares covered	\$300
31 - 50 mares covered	\$600
51 - 70 mares covered	\$900
71 - 100 mares covered	\$1,200
More than 100 mares covered	\$1,500
Late lodgement of Certificate of Service - \$65 per month	

On this page, all the Stallions that you administer that are still active are displayed. A Stallion's name may appear more than once in this list when Returns have not been submitted for previous breeding seasons. In this case you will see the Stallions name more than once, but the season against the Stallion's name will differ.

If a Return has been entered for a Stallion, but it hasn't been paid for yet, a status of "In Progress" will appear to right of the Stallion record in this list.

Once a Return has been entered and paid for, the Stallion's name will drop off this list.

There is also a navigation option available to go to the payments page for Returns that you have previously submitted but not yet paid for (it is possible to submit returns and elect to pay at a later date). If you wish to go to the unpaid returns page to submit payment, use your mouse pointer and click on the [If you have any unpaid returns please click here.](#) link (Go to Step Four in the Stallion Returns process on page 29 to see instructions on making a payment).

N.B. The Stallion Returns are **not** processed **UNTIL** payment has been made.

Once on this page, a step-by-step approach to the Stallion Returns process is provided. Step One requires you to select the Stallion you wish to submit the Return for. You have the option to select the Stallion from the list of active Stallions displayed by double-clicking on the Stallion's name, or if the list is long you can use the "Find Stallion" functionality to search for and display the Stallion.

N.B. If the Stallion appears in the list more than once, you must lodge the earliest season stallion declaration first if stallion has multiple returns missing.

Pricing guidelines for the returns are published on this page as illustrated below:

CERTIFICATE OF SERVICE FEES	
1 - 14 mares covered	\$100
15 - 30 mares covered	\$300
31 - 50 mares covered	\$600
51 - 70 mares covered	\$900
71 - 100 mares covered	\$1,200
More than 100 mares covered	\$1,500
Late lodgement of Certificate of Service - \$65 per month	

These service fees apply up to and including the payment for the returns submitted, i.e. once the returns have been paid for, the number of Mares can't be appended to and go into the other payment groupings. Effectively once payment has been made, the number of Mares covered counter is reset to zero.

In this example the Stallion that is being returned is called "Casual Lies". As there are only seven Stallions listed it is easy to locate and select it from the list displayed. If there are a large number of Stallions, the search function will allow you to enter all or part of the Stallion name into the search field:

Enter stallion name:

Once you have entered all or part of the Stallion's name, click on the button and the Stallions that match the search criteria will be displayed immediately below the search field:

Enter stallion name:

Season	Stallion
2007	Casual Lies (USA) 1989

To go to the next step in the returns process, click on the Stallion Name either from the initial list or from the search results list and Step Two of the Stallion's Return process will be displayed:

Stallion Declaration of Service

Stallion Declaration of Service - Step 2

Select the name of the mare that has been served by **Casual Lies (USA) 1989**

Enter mare name:

Date of first service:
1 | 1

Date of last service:
1 | 1

Step Two – Stallion Declaration of Service – Select Mare

This step requires you to search for and select the Mares that were served by the Stallion selected in step one of this process. Enter all or part of the Mare's name into the search field:

Enter mare name:

The more letters of the Mare's name that you enter into the search field the quicker the search will be, and the results will be more refined. In this example the Mare that was served is called "Dream Catcher" and the search criteria entered is "dream c":

Enter mare name:

Click on the button to execute the search. If a match is made on the search criteria provided, the matching Mares will be displayed:

N.B. Un-named mares appear in this list under their *dam name, year of birth and sire name*. They appear in the list alphabetically under their dam's name.

Select the Mare from the search results by clicking on the Mare's name. Upon clicking on the Mare's name, it will appear in the "Enter Mare Name" field:

Enter mare name:

Once the Mare that was served is displayed, the Breeder can now record when the first and last service occurred. Use the drop-down lists to select the day and month of the first service:

Date of first service:
3 10

Date of last service:
3 10

The date of the last service will default to the date of the first service once selected. If you want to change the default last service dates, use the drop-down lists to select the day and month:

Date of first service:
3 10

Date of last service:
12 11

Once you are satisfied that the service details are correct, click on the **Continue** button and the next step in the process will be displayed showing the summary of the service declaration entered (Step 3):
